

Announcing - a GlassWare Party

Attention patients who use "glass" pipes for medical cannabis delivery devices. A Smokin' GlassWare Party is happenin' **Sat., Jan. 28th** at the **Mercy Center** from **High Noon to 4:20pm.**

SORRY, but this is a cardholders only event.

The STORY

GlassWare Parties are an opportunity for medical cannabis patients to examine and inquire about this particular means of medicating in privacy and comfort.

A GlassWare Party has been arranged at the MERCY Center Sat., Jan. 28th from High Noon to 4:20pm featuring the very functional glass art of Smokin' Glass of Portland.

Come preview beautiful, practical "glass" products and accessories in a nice, SAFE, friendly environment where people can discuss the FAQs openly and straightforward.

Y'see, when in the store, conversations must be carefully controlled, even in the age of OMMA.

NOTE: "Smoke Shop" Protocol for Medical Cannabis Patients

Smokin' Glass sells only the finest quality functional glass art and other products. Sure, WE all know what else they can be used for, but we can't talk openly about it in the store. (continued)

BUT!, OMMA didn't fix anything in this area, it's the same old drag. Anyone heard using words like: Bong, Hash-pipe or any word that implies illegal intent in the store - could be a local yokel on a boon-doggle or even a DEA agent on a fishing expedition - and the owner could be fined or even shut down. No joke.

SORRY! But federal law applies, so watch yer terminology! Yep, it's a silly game we ALL must play til we change the law.

Smokin' Glass has supported individuals and groups in the medical cannabis movement since the concept began. They help as much as they can publicly, mostly by patiently educating consumers on the law when purchasing their functional glass art for use as delivery devices while giving them the best price they can.

Now, would like to help more by offering a discount to the patient community. Mention you read it here and receive 30% off! Yes, all OMMP Cardholders get a whopping 30 percent savings on your purchase. So, stop on by their new location in Portland at -

**1408 SE 39th, a half block north of Hawthorne up 39th,
next to Jiffy Lube**

- and ask about their water-pipes (NOT "bongs"!) and other functional glass pieces that OMMA cardholders may be interested in.
