Status of Medical Marijuana (Cannabis) in Alabama.

[Info on Alabama and Medical Cannabis](#)

Alabama does NOT have a MEDICAL MARIJUANA (cannabis) LAW. Yet.

In the 2012 legislative session, Representative K.L Brown, a Republican Christian Conservative, introduced the Alabama Medical Marijuana Patients Rights Act. Had it passed, the AMMPRA would have created a safe and regulated medical marijuana program for the patient's of Alabama. The AMMJC has currently been hosting picnics all over the state in an effort to raise community awareness about the many benefits that medical marijuana can have. They have also had a few radio interviews, see > [here](#) <. It is our wish that we can come together and educate the fine folks of Alabama about this issue. For a Copy of the Bill, click > [here](#) <. For more on AMMJC, click > [here](#) <.

Thank you for supporting this effort, stay tuned for the next. If you are a patient or a medical professional who supports this legislation, please keep up the fight. See below for Action, see [News](#) section for more on the story.

ACTION; Get involved in the movement for safe and legal access to medical cannabis today. Our power comes from our collective action. Whether it's calling Congress, attending rallies, organizing a local activity or chapter, signing an online petition, or supporting federal defendants, take action today! There are a number of medical cannabis (marijuana) bills in play in states across the US. Here we network on Ways and Means anyone can help with the effort to make each a medical marijuana state. We need to get the word out and people contacting reps and officials and get this legislation into law. Also, lets not forget efforts at the [Federal level](#).

NETWORK and Spread The Word, both On-Line and Off (!) ON-LINE, You can tell everybody in cyber-space by e-mailing a link to this website to them and/or (OFF-LINE> [printing off](#) the info and handing out where possible / necessary. Also phone call and read off and/or visit and hand deliver the info. You can take literature with you and approach businesses, organizations and even people on the street while you're out and about. Wear your pot-leaf shirt and register voters, as feasible. Gather signatures for any related petitions that are happening at the time as well.

This is a chain e-mail you can't refuse. Unlike most, this will actually help you - and a whole buncha others - just by passing it on. Cannabis consumer or not - from the folks just trying to take care of themselves or a loved one to those who simply see the expensive, immoral waste of making war on the sick and dying - everyone is affected by this issue.

To accomplish this you need to first click on the following links and send a message to all the reps and media you can on the issue. Then get everybody else to do the same. And follow up.

To do this you need to tell everybody you know. And can confide in. Then/or anonymously tell everybody you don't know - or can't confide in. Yet.

Tell everybody else by Letters-to-the-Editor, displaying signage at street corners and over-passes (wear trenchcoat, fedora and sunglasses if afraid of exposure), and/or anonymously leaving literature and posting on-line at places where people are likely to find it. Coffeeshops are good places to leave printed material and you can go to the websites of the local newspapers to post items as well. More ideas and supporting tools via the links below.

Inform, Educate, Activate

INFORM and EDUCATE. Distribute medical marijuana brochures and other literature to your friends, family, local leaders and elected officials in an effort to educate the public and garner support. Educate your community by Printing, posting and handing out Flyers and other Printables in a mall, coffee shop, laundromat, college campus, lamp post, telephone poll, business window (ask first), hospital, or anywhere people will see them. Contact these groups for some. If you or your Organization is doing the same, please [Post It](#) or [give us Feed Back](#).

▶ **Medical and Scientific Information about Cannabis (marijuana); Flyers and Printables by ASA | Educate your community. Print and post these flyers anywhere people will see them. ...** visit: <http://americansforsafeaccess.org/section.php?id=125>

▶ **You can also print and hand out MPP's [medical marijuana brochures](#) to your friends, family, local leaders and elected officials in an effort to educate the public and garner support.**

OUTREACH and Gather TESTIMONY. Ask your doctor, clergy member, local leader, or organization you are a member of to sign a statement of principle. One way to get that done is to download MPPs [medical marijuana statement of principle](#), print

it out, and ask your doctor or other individual to sign it the next time you have the opportunity. Then send it to MPP at P.O. Box 77492, Washington, D.C. 20013.

● **And TESTIFY. If you are a patient or caregiver that could benefit from such a law and would like to help advance legislation by sharing your story with others.** Call in to radio, TV and other media; write LTEs and contact your legislators. These groups are helping with this activity:

▶ **Alabama legislators consider marijuana policy reforms in 2013 - Last Update: September 20, 2013 |** The Alabama House of Representatives held public hearings on two bills in 2013: a medical marijuana bill and a bill that would have taxed and regulated marijuana like alcohol. While neither bill received a vote in the full House, these bills were an important step in Alabama re-examining its costly and ineffective marijuana policies. Unfortunately, the medical marijuana bill, HB 2, was voted down by the House Health Committee. HB 550, which would have made marijuana legal for adults 21 and older, was considered by the House Committee on Public Safety and Homeland Security but did not receive a vote. Both bills were sponsored by Rep. Patricia Todd (D-Birmingham). HB 550, also known as the Alabama Cannabis and Hemp Reform Act of 2013, would have allowed adults 21 and over to possess up to one ounce of marijuana and cultivate up to 12 plants in a secure

space. It would have taxed marijuana similarly to alcohol and would have tasked the Alabama Department of Revenue with licensing retail outlets and regulating the cultivation, distribution, and sale of marijuana to adults 21 and over. In addition to allowing a regulated and taxed marijuana industry, HB 550 would have also set up a medical marijuana program.

Please take a moment to let your legislators know that Alabamians strongly support protecting the seriously ill from arrest. A 2004 poll by the Mobile Register and the University of South Alabama found that 75 percent of respondents supported legalizing marijuana for medical use under a doctor's supervision. If advocates can convince other legislators to join Rep. Todd as co-sponsors, chances of passing a bill in 2014 will improve dramatically. >> Visit - <http://www.mpp.org/states/alabama/> Are you a patient, arrestee, clergy member, or member of law enforcement? | If you are supportive and are a patient with a serious medical condition who might benefit from medical marijuana, a loved one of such a patient, a person who has been arrested for possessing marijuana, a medical professional, a member of law enforcement or the clergy, or a lawyer or Ph.D. who might be interested in speaking out, please email state@mpp.org to see how you can be of special help. Be sure to include your address and nine-digit ZIP code so we can determine who your legislators are.

ACLU study shows Alabama's harsh marijuana laws result in racially disproportionate arrest rates | Alabama has some of the harshest marijuana penalties in the country. Possession of even a single joint is punishable by up to a year of incarceration. It's clear these laws have not been successful, and new evidence shows that Alabama's laws are not being evenly enforced. A 2013 study by the American Civil Liberties Union found that although blacks and whites use marijuana at nearly identical rates, blacks in Alabama are 4.4 times more likely than whites to be arrested for marijuana possession.

Please take a moment to send a letter to your legislators asking them to reduce the penalty for possession of marijuana to a civil fine or ask them to end marijuana prohibition entirely. ▶ **Informational Guide on Medical Cannabis | If you have ever heard of the song, "Lets Go Get Stoned," as sung by Ray Charles or Joe Cocker, you know the lyrics were referring to getting high or using cannabis aka marijuana. This mind altering drug goes by other names as well; names such as weed, pot, joint, blunt, hash and mary jane are quite common among users. Cannabis is a plant that contains a chemical called cannabinoids or cannabinoidic acids.** Another substance that is found in cannabis is THC, or Tetrahydrocannabinol, which gives the users that "high" sensation. When speaking of marijuana, the actual substance used in creating the high feeling comes from the leaves and flowering tops of the cannabis plant. Marijuana is considered to be a schedule 1 controlled substance today, because of the THC, which can be highly potent, depending upon the concentration factor of the THC. The presidents can, however, lay their safety concerns to rest because the scientific literature overwhelmingly confirms that cannabis is both an effective and safe medicine. The Cannabis Safety Profile. The journal PHARMACOLOGICAL REVIEWS reports that decades of research prove that, "Compared with legal drugs...marijuana does not pose greater risks." Yet based upon mortality statistics, we can safely conclude that cannabis is one of the safest medical drugs known, for, while prescription drugs, defined as safe by the FDA, kill up to 27,000 and aspirin up to 1,000 Americans per year, cannabis kills 0 per year.
