Organizations, Contacts and other Resources

▶ **Patients Out of Time** is a patient advocacy organization with a universal constituency. They support the rights of patients to have a legal and safe access to the therapeutic use of cannabis. The mission of their organization, a 501 (c) 3 non-profit, is the education of health care professionals and the public about the therapeutic use of cannabis. Their leadership is composed of medical and nursing professionals with expertise in the clinical applications of cannabis and five of the seven patients (two wish to remain anonymous) who receive their medical cannabis from the US government. Patients Out of Time is the only national non-profit in the United States that focuses only on therapeutic cannabis issues. Visit - <http://www.medicalcannabis.com/>

▶ **Medical Marijuana Meeting | Medical Marijuana Minds Gather in Charlottesville (5/28/04)** Charlottesville, Virginia, was home to a gathering of some of the best and the brightest doctors, nurses, and researchers studying medical applications of marijuana for three days last weekend. Beginning May 20, more than 120 people from across the country, as well as Canada, the Netherlands, Israel and the United Kingdom, met for the Third National Clinical Conference on Cannabis Therapeutics, an event cosponsored by the University of Virginia School of Medicine and Patients Out of Time, the Virginia-based medical marijuana research and advocacy group. ▶ **Medical Marijuana: Virginia Nurses Association Reiterates Its Support | The Virginia Nurses Association the first in the country to come out in favor of medical marijuana, has reconfirmed its support for therapeutic cannabis and called for immediate legislation to legalize its medicinal use.** Representing some 80,000 Virginia nurses, the association declared last week that it "will continue" to seek the regularization of medical marijuana as a therapeutic substance. "The Virginia Nurses Association will continue to support legislation that would legalize the medically prescribed use of cannabis/marijuana for the purpose of relieving pain and distressful symptoms of acute, chronic, or incurable illness," the group proclaimed. ▶ **cannabisnews.com: Virginia Nurses Again Demand Medical Cannabis | The Virginia Nurses Association, representing some 80,000 nurses, have recently reconfirmed their support for Medical Cannabis and are continuing their support for immediate legislation legalizing its medical use.** The VNA, at their October 2004 Delegate Assembly, resolved that: "The Virginia Nurses Association will continue to support legislation that would legalize the medically prescribed use of cannabis/Marijuana for the purpose of relieving pain and distressful symptoms of acute, chronic, or incurable illness." The VNA "will continue" to support this patient care position since the VNA was the first of now 14 state nursing associations that have taken written published positions in support of the therapeutic use of cannabis. The VNA leadership in 1994 has been echoed over the years by the American Nurses Association, the American Public Health Association, the National Nurses Society on Addictions, and dozens of other medically orientated groups. visit - <http://cannabisnews.com/news/21/thread21083.shtml>

Cannabis as Medicine

▶ **Modern research suggests that cannabis is a valuable aid in the treatment of a wide range of clinical applications.** These include pain relief, nausea, spasticity, glaucoma, and movement disorders. Marijuana is also a powerful appetite stimulant and emerging research suggests that marijuana's medicinal properties may protect the body against some types of malignant tumors, and are neuroprotective. For more information see NORML's Medical Marijuana section. See: norml.org/index.cfm?wtm_view=&Group_ID=4523 for more.

▶ **Erowid Cannabis Vault : Medical - Cannabis is Safe Medicine | Proven : Cannabis is Safe Medicine, by Ian Williams Goddard.** In reaction to medical cannabis access referendums on the ballots in Arizona and California, former presidents Gerald Ford, Jimmy Carter, and George Bush signed a letter stating that they "categorically oppose" access to cannabis for its many proven therapeutic uses such as the prevention of blindness and epileptic seizures [1]. Their chief concern was that legal medical access would send the message that cannabis is safe. The presidents can, however, lay their safety concerns to rest because the scientific literature overwhelmingly confirms that cannabis is both an effective and safe medicine.

The Cannabis Safety Profile. The journal PHARMACOLOGICAL REVIEWS [2] reports that decades of research prove that, "Compared with legal drugs...marijuana does not pose greater risks." Yet based upon mortality statistics, we can safely conclude that cannabis is one of the safest medical drugs known, for, while prescription drugs, defined as safe by the FDA, kill up to 27,000 and aspirin up to 1,000 Americans per year, cannabis kills 0 per year [3]. visit - http://www.erowid.org/plants/cannabis/cannabis_medical_info2.shtml

▶ **LegalJoint: Medical Cannabis | Conference to Question Medical Cannabis. Pregnant women with morning sickness and children with attention deficit hyperactivity disorder might try taking marijuana, according to experts who will speak at an international conference in Charlottesville.** Mary Lynn Mathre, president of Patients Out of Time, said it's well known that marijuana can reduce pain and stimulate appetite, which is helpful for AIDS patients. But she said people who attend the Third National Clinical Conference on Cannabis Therapeutics will hear about lesser-known benefits of the drug. ... ► Factbook: Medical Marijuana

1. Since 1996, twelve states have legalized medical marijuana use: **AK, CA, CO, HI, ME, MT, NV, NM, OR, RI, VT, and WA.** Eight of the twelve did so through the initiative process. Hawaii's law was enacted by the legislature and signed by the governor in 2000, Vermont's was enacted by the legislature and passed into law without the governor's signature in May 2004, Rhode Island's was passed into law over the governor's veto in January 2006, and New Mexico's legislation was signed into law by Governor Bill Richardson on April 2, 2007. Source: National Organization for the Reform of Marijuana Laws (NORML), from the web at http://www.norml.org/index.cfm?Group_ID=3391, last accessed Jan. 4, 2006, and the Marijuana Policy Project (MPP), from the web at http://www.mpp.org/RI_number_11.html, last accessed Jan. 4, 2006.

2. The Institute of Medicine's 1999 report on medical marijuana stated, "The accumulated data indicate a potential therapeutic value for cannabinoid drugs, particularly for symptoms such as pain relief, control of nausea and vomiting, and appetite stimulation."
